

Gilbert Scott Blended Learning – Spring Term 2021

Below is our current offer for those pupils working at home during the period of partial closure. School remains open for vulnerable and critical worker pupils.

It is vitally important that all pupils access learning during this period, whether it be in school or at home. We have tried to ensure that the learning in school matches the learning given to those at home. However, for some subjects, this is not possible. The offer of live and recorded lessons is adapting and changing each week, as teachers discover and learn themselves. What we recognise is that we must be flexible in what we are offering and that in the same way staff are learning, so are children and parents. We must also recognise that parents are not teachers and that they will require support as well. Please do your best to ensure that your children are engaging with the learning. If they are not staff will get in touch to support.

If anyone requires a laptop or other device to access remote learning, please do contact the office immediately. Also, if you require any other resources or support, please do get in touch at admin@gilbert-scott.org or through your class teacher on clasdojo.

Class	Platform	English	Mathematics	Science	Other subjects	Google Meets/live
